HALF YEARLY

Jan - June

From the desk of our Founder >

Dear Patron,

Greetings!

Right to Live has completed 5 years and I take this opportunity to thank you for your kind support in helping us achieve this milestone. We take pride in sharing that we are India's first crowd funding platform with a network of 10 hospitals. We are partnered with 12 NGOs and 13 corporates who have supported us in helping 138 patients get medical treatment for their ailments and disabilities.

We now find ourselves planning to replicate our success and adding more inclusion groups such as Health, Education, Basic Infrastructure, Digital Inclusion and Environment. Towards this, we plan to start projects within each of the verticals cited above to support the underprivileged. Our motto is to improve the standard of living of the deprived through these projects and uplift the community at large.

We would be happy to be receiving your continued patronage and cooperation to build a stronger ecosystem.
