2018 HALF YEARLY
Jan - June

From the desk of our Founder, Trustee and Board Member

Dear Patron,

Greetings!

It gives me immense pleasure to share the fact that thanks to your kind support, we have been able to help more than 150 underprivileged patients by far and this year, we have added 2 more focus areas - Education and Basic Infrastructure.

Under the Education project, we have started “E-Learning” program to provide high quality learning content and the program is already benefitting more than 4000 students across 25 Govt. Schools. We plan to start including more schools in the next quarter to make a significant difference to the lives of the deserving, underprivileged children.

We have also adopted Hosahalli Village near Doddaballapur for providing basic infrastructure such as community toilets. As part of this program we are also providing Health, Education, Livelihood for women and such other initiatives for the overall development of the village. One of our important objectives is to improve the standard of living of the deprived and uplift the community at large.

We are humbled by our achievement and would like to thank all our stakeholders – donors, hospitals, corporates, schools, Government, other NGOs and volunteers, who have constantly extended their support in our endeavor.

As we embark on this journey of supporting the needy, we also look forward to extending our helping hands to many more such underprivileged souls and towards this, we sincerely request your continued support and co-operation in building a stronger ecosystem.

Education – E-learning at Govt. Schools

E-Learning at Government Schools is an initiative by Right To Live (Kote Foundation) in association with BYJU's (Think and Learn Pvt Ltd). This initiative is to offer students get access to graphically aided high-quality learning content that will contribute to better learning outcomes at Government schools in Karnataka.

Right To Live believes that more the learning is made intuitive and inspiring, the thirst for knowledge for the students will grow, thereby motivating them to study more and aspire to become responsible citizens of the country.

In January 2018 we piloted this program in 4 government schools in Bangalore. The program was a huge success and we received an overwhelming response from both students and teachers which motivated us to expand this high-quality learning facility to more and more government schools.

Today our e-learning program is active in 13 schools benefitting 1500 students daily!

Our E-Learning solution includes -

1. Providing digital infrastructure for the classroom which contains a 43" LED TV, Android tablet loaded with BYJUs contents, 4G internet connection & Chromecast.
2. Providing school coordinators who will be visiting the schools twice a week for the smooth implementation and monitoring of the program.

Education – E-learning at Govt. Schools

E-Learning -Expansion to 8 new Govt. Schools

Events at Right To Live

Health Camp at a slum near Konanakunte:

Right To Live in association with Vasavi Hospital conducted a health check-up and school enrollment camp at a slum near Konanakunte Cross.

We were able to provide medical checkup for around 59 slum dwellers and shortlisted 60 children for enrollment to the nearest Govern-

About Us:

Kote Foundation envisaged the idea of Right To Live as a collaborative social ecosystem connecting patients, financial donors, hospitals, doctors, volunteers, corporates, NGOs and government with the common vision of helping the less privileged to get financial assistance for critical healthcare treatment.

We are a registered trust with 80G tax exemption, and a FCRA, CAF, CAF America and IICA approved organization. During our last 4 years of journey, we have helped over 150 patients with medical conditions of Kidney, Heart, Cancer and various other disabilities.

Our uniqueness is that 100% of your donation goes towards the treatment of patients, since our administrative costs are covered by our trustees, volunteers and our sponsoring corporate, Opteamix.

Get Involved

Volunteer With Us!

Right To Live's volunteer program is a way for people to invest their skills, minds, and hearts in support of Right To Live's mission. The skills and time volunteers contribute, allow Right To Live to free up its resources to better meet the needs of the children and families we serve.

Volunteering with us is an opportunity to develop new skills, make new friendships, and be part of an amazing group of people. But above all you'll have the incredible satisfaction and a sense of purpose in knowing you are touching the lives of those in dire need.

Every task, no matter how small, has a significant beneficial effect on the bigger picture changing lives.

Volunteer Opportunities

Year-round volunteer support is essential to meet the ever-expanding needs of Right To Live's programs. There are lots of things you could do to support us – Digital marketing, public awareness and fundraising, organising events, designing our posters and flyers, creating short films and photography, providing IT support for our website etc... It all depends what you want to do and what you're good at.

Our volunteers can offer their time daily, weekly, or monthly.

Get in touch with us!

If you have time to give and the compassion to help others, we are keen to welcome you among our team.

Get in touch with your us at ashik@righttolive.org, +91 70228 72220 to find out more.

Thank You!

Note: This newsletter is designed with the intention to communicate the half yearly updates to our well-wishers. Appreciate your care and kind support.
