DISCHARGE SUMMARY

Name:	MANJUNATH	Date of Admission:	27-08-2021
Age:	49 years	Date of Discharge:	30-08-2021
IP. NO.:	RH00889534	Patient Contact No.	9591810763
CT Reg. No.	15283	Patient Address: BANGALURU	
Reg. Date	22/07/2021		
Blue card	Issued		
Consultants:	Dr. Nalini Kilara	Sr. Professor, RMCH	
	Dr. Vinayak V Maka	Professor & HOD, RMCH	
	Dr. Santhosh K D	Associate Professor, RMCH	
	Dr. Rasmi P	Assistant Professor, RMCH	

DIAGNOSIS:

- **LOCALLY ADVANCED CARCINOMA SIGMOID COLON, cT4bN0M0, STAGE IIC**
- **CYCLE 1 DAY 1 NACT FOLFIRINOX CHEMOTHERAPY**

HISTORY:

This 49 years male initially presented with c/o growth in sacral region from past 1 year and was evaluated for the same. Colonoscopy was done which showed polypoidal growth in sigmoid region. Biopsy from sigmoid growth showed moderately differentiated adenocarcinoma. On further evaluation with PET-CT scan showed locally advanced disease. The patient was then referred to medical oncology department for further evaluation and management. The case was discussed and planned for neo-adjuvant FOLFIRINOX chemotherapy followed by assessment for surgery. The patient is now admitted for the same.

No comorbidities.

No family h/o malignancy.

ON EXAMINATION:

Ht-148cms, Wt-40kgs, BSA-1.28sqm

BP-120/70mmHg

CVS/RS/PA-Clinically NAD

L/E: 13x10 cms UPG over sacrum

B/L inguinal LAP present, Left axillary lymph node 1.5x1 cms

INVESTIGATIONS:

Hb-11.0, TLC-10,900, N-76%, Platelets- 6.75L, TB/DB-0.43/0.43, OT/PT-15/13,

S.creat-0.97, Na/K/Cl-139/4.9/104
