

Support Covid Treatment in Rural India May 15th Update

- Inauguration of the project on May 10th, in the presence of Retd. Supreme Court Judge, Hon'ble Justice V. Gopala Gowda and Panchayat officials.
- Purchase of one 10L Oxygen Concentrator (OC), and orders placed for five 5L OCs.
- Medicines have been purchased and are being packed in smaller units for distribution to the villages.
- We identified 250 volunteers from the villages. These volunteers are being trained by Dr. Anil Kumar to check health parameters using Oximeters and thermometers.
- We are in discussion with a Global healthcare organisation for usage of their app Cov-Safe that allows easy data collection through smartphones, and subsequent tracking and monitoring of patients.
